

Monitoring Violation Notice

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Monitoring Requirements Not Met for: RUSK RURAL WSC CROCKETT ST PLANT

Our system failed to collect every required coliform sample. Although this incident was not an emergency, as our customers, you have a right to know what happened and what we did (are doing) to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During [September 2025 09/01/2025-09/30/2025] we ['did not monitor or test'] for coliform bacteria and therefore cannot be sure of the quality of your drinking water during that time.

What should I do?

There is nothing you need to do at this time. You may continue to drink the water. If a situation arises where the water is no longer safe to drink, we are required to notify you within 24 hours.

What is being done?

Corrective action: We collected every required coliform sample in October 2025 and November 2025 and will do so every month and are no longer in violation. For more information, please contact Mike Hamilton at 903-683-6178.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

This notice is being sent to you by RUSK RURAL WSC CROCKETT ST PLANT.

Public Water System ID#: TX0370031.

Date distributed: 12/18/2025
